The image shows a screenshot of a software dialog box titled "Revit Account Update". The dialog box has a standard Windows-style title bar with a close button in the top right corner. The main content area contains the following text and controls:

- A message: "A licence is required to run Revit on this computer."
- Instructions: "If you or an administrator have already created your account, please enter your email address and password below. Otherwise, please register now."
- Two radio buttons for selection:
  - The first radio button is selected and is followed by the text "Enter your existing account information". To its right are two text input fields: "Email Address:" and "Password:".
  - The second radio button is followed by the text "Register now".
- A label "I want to:" followed by a dropdown menu. The dropdown menu is currently displaying "Update My Account".
- A footer section with a line of text: "For changes to your account other than these supported in this wizard, please phone us at [977] 17 REVIT."
- A row of four buttons at the bottom: "< Back", "Next", "Cancel", and "Help".

The image shows a software installation window titled "New To Revit". It contains two radio button options: "Subscription" (selected) and "Demo". The "Subscription" option includes text about starting a subscription for as little as one month, with a monthly charge of \$199 for a single seat. The "Demo" option includes text about trying a demo version of Revit. At the bottom, there are four buttons: "< Back", "Next", "Cancel", and "Help".

**New To Revit**

☒ **Subscription** Click here to immediately begin your subscription to Revit. You may subscribe for as little as one month and cancel at any time to avoid being billed for the next month.  
The monthly charge for a single seat of Revit is \$199. Quantity discounts apply for subscriptions of 2 seats or more, call [877] 47 REVIT for more information.

☐ **Demo** Just kicking tires? Then try our demo version of Revit. This is the full Revit product, but you won't be able to plot or save your Revit models. This is ideal if you want to see what Revit can do before subscribing.  
But we are so sure you will find Revit easy to use and remarkably powerful, that we encourage you to subscribe now.
